

# OUR WAY

Is not to misrepresent texture or quality. We offer merchandise exactly as manufactured—cotton sold for cotton, wool sold for wool, silk sold for silk. "The other way" as some stores in this city misrepresent by offering mercerized cotton for pure silk. Don't allow yourself to be flim-flammed—stand by the house of quality and square dealing methods.

## DRESS GOODS

The early spring showing of staple and fancy dress goods is bringing many a word of praise for this fine collection of imported and domestic weaves. The colorings are all a beautiful array of clever designers' art, some of these effects possess an exclusiveness which will make them quickly disappear.

The famous new shape of Hats and Caps for children. Many new and different styles to choose from, including a new line of hats in black and brown leather, blue, brown and red serge, red and brown cashmere. In this showing are all sizes.

## SHOE SECTION

Our children's Shoe Department is a success. We could give many reasons why style, superior fitting quality and all around serviceability. The same applies to all our shoes. That is why we are growing so rapidly. Spring styles are coming in; don't delay your buying; buy now whilst styles and sizes are complete.

## EARLY SHOWING OF NEW SPRING GINGHAMS

These first arrivals are extraordinarily attractive from a leading loom of world-wide repute. Tasty patterns of durable weave make them stand the roughest sort of usage and frequent washings. These gingham make ideal dresses for school girls; a very happy solution of the vexing spring school dress problem. We warn you that their stay with us will be brief, as the price is very inferior to the high grade of the goods.

## OBJECT TO TARIFF ON SUGAR AND TIN

Washington, D. C., Feb. 18.—Members of the California delegation to congress today are in a puzzling situation as the result of a recent demand of the Cannery's League for a reduction of the duties on beet sugar and tin plate, alleging that both can be produced cheaper in the United States than in any other nation.

The states supplying beet sugar and tin are up in arms over the demand. Even California industries interested in beet sugar and tin production are complaining, and the delegation is being appealed to by both sides.

The ways and means committee, which is considering the matter, is in a quandary; and it is probable that the cannery's demands will cause material reduction in the fruit tariffs.

## PANIC CAUSED BY BURNING FACTORY

Chicago, Feb. 18.—Three hundred and fifty women and girls were thrown into a panic today when a fire started in the factory of the Kinley Baby Carriage Manufacturing Company. Scores of women ran for stairways and exits and were bruised and injured in the mad rush to escape the flames.

A general alarm was sounded, which brought scores of engines and other fire apparatus to the scene. Police reserves and firemen entered the building and aided by a score or more of men employees of the factory, succeeded in rescuing all the women.

For a time it appeared as though the entire block would be destroyed and that the flames would spread to other portions of the city.

After a stubborn fight the flames were extinguished. No deaths were reported. The loss is estimated at \$200,000.

## ECZEMA A GERM DISEASE.

Myriads of Microscopic Animals Infect the Skin of the Sufferer.

When the skin of an eczema sufferer itches and burns in untold agony, do you know what is going on within the pores of that skin?

Myriads of microscopic animals are gnawing at the flesh, breaking down the fine cells and causing festers, thick scales and that terrible itch. The germs multiply faster than nature can throw them off.

Now, there is only one way to get rid of these germs—they must be killed in their lodging places. Dozing the stomach or trying to cure the blood will not, of course, kill the germs, and that is why all the blood remedies fail in eczema; that is also why salves which do not penetrate can do no permanent good.

Ordinarily oil of wintergreen properly compounded in liquid form will penetrate the pores of the skin and kill the eczema germs. If properly mixed with thymol, glycerine and other ingredients (as in D. D. D. Prescription) this wash will build up the tissue of the skin and promote its healthy growth, giving nature a chance, while killing the germs faster than they can multiply.

The Capital Drug Co. of this city carries D. D. D. Prescription, also D. D. D. Soap in stock.
